The exciting new 3 in 1 Crossfire TRION 210 is an innovative single phase, 200 Amp multi-process machine featuring the very latest in technology and operator appeal. Unlike many multi-process welders available today, the TRION 210 does not compromise weld performance in any output setting. Novice and professional welders alike will appreciate its quick, intuitive set up procedure. Through the easy to navigate LCD screen, simply enter the chosen weld process, material type and thickness, wire or electrode diameter, and if applicable, the shielding gas. The 210 automatically sets up to the ideal weld parameter, immediately ready to tackle your requirement with ease.

FEATURES AND PROCESSES:

- NEW LCD Screen 3.5" x 2.5" viewing area
- Gas Metal Arc Welding (GMAW) MIG welding
- SMAW Stick welding
- DC TIG Welding (GTAW) with touch start
- 10 ft. Tweco Style MIG gun
- 14 ft. electrode cable and holder
- Infinite amperage/wire feed and voltage control
- Gas Solenoid
- 6 ft. power input cord and dual voltage plug
- Auto set up
- Flux Cored Arc Welding (FCAW) or self shielded welding
- .023 - .035 drive rolls
- 10 ft. ground cable and clamp
- Flow gauge and gas hose
- Spot timer
- Thermal overload
- Easy lifting handle

OPTIONAL EQUIPMENT INCLUDES:

Spool Gun (10 ft)
Part Number: CF-99920

- 160A @ 60% duty cycle
- 10' (4.9m)
- Straight Barrel
- Pistol Grip
- .030 - .035

TIG Torch
CF-99910

- 150A air-cooled torch
- 10' cable
- Gas control valve

3 Tier Cart
CF-99900

*Limited 3 year warranty
