The exciting new 3 in 1 Crossfire TRION 250 is an innovative single phase, 250 Amp multi-process machine featuring the very latest in technology and operator appeal. Unlike many multi-process welders available today, the TRION 250 does not compromise weld performance in any output setting. Novice and professional welders alike will appreciate its quick, intuitive set up procedure and impressive 60% duty cycle. Through the easy to navigate LCD screen, simply enter the chosen weld process, material type and thickness, wire or electrode diameter, and if applicable, the shielding gas. The 250 automatically sets up to the ideal weld parameter, immediately ready to tackle your requirement with ease.

COMPLETE ACCESSORY PACKAGE

FEATURES AND PROCESSES

- Heavy Duty 4 Drive Roll Feeder System
- Large LCD Screen viewing area
- Gas Metal Arc (GMAW) MIG Welding
- DC Stick Welding (SMAW)
- DC TIG Welding (GTAW)
- Flux Cored Arc Welding (FCAW)
- Easy Auto Set-up
- Burnback Control
- Thermal Overload Protection
- MIG Wire Clean Start Technology
- Running Gear/ Dual Q Size Cylinder Rack
- Drive Rolls .023" -.045"
- 20 ft. Tweco Style Spool Gun
- 13 ft. WP26 TIG Torch w/ 26' Foot Control
- 13 ft. Tregaskiss Style MIG Gun
- 10 ft. Ground Cable & Clamp
- 14 ft. Electrode Holder
- 10 ft. Gas Hose w/ CGA 580 Flow Gauge x 2
- 7 ft. Power Cable
